Re: TAPA - B Certification Certificate - US 13/82966

Jet Expedited Transport Inc. in Portland, Oregon is proud to announce successful completion of the Audit and Certification process associated with TAPA (Transported Asset Protection Association) level - B classification.

With very high security and procedural standards, TAPA certification signifies a commitment to the customer well above the minimum standards throughout the supply chain. As a TAPA - B certified Freight Supplier, JET continues to distance itself from the competition, maintaining pace with our customers growing need for superior supply chain integrity.

At JET we understand that our customers have many choices when determining what company will best meet their transportation needs. By ensuring JET remains a leader within the industry, we ensure our customers are making the best choice.

Thank you for your support - past, present, and in to the future.

Sincerely,

Leland O. Johnson
President
